

**You're ready
to become a CPA.**

**Now get ready
to pass the exam.**

Becker. Serious about your success.

BECKER
CPA REVIEW

Decide.

You've made the first big decision: you're going for your CPA designation. Your next decision: how will you prepare to pass the exam?

Make no mistake. Achieving your CPA designation is one of the toughest professional challenges you will ever face. That's why you should carefully choose the exam preparation program that offers you the greatest opportunity for success. But how can you tell which one is best?

Here's what to look for and why.

The CPA Exam evolves constantly with new content and functionality added each year. You need a curriculum and review methodology that stay current with how the exam is structured, that emphasize the areas on which the questions focus, and that give you a complete, coordinated approach to study, review, and practice.

- **Comprehensive, current curriculum**—ensure that the program is created and continuously updated to emphasize the specific information you need to pass in the upcoming exam windows.
- **Flexibility and control**—you should be able to choose the method of study and review that meets your personal preferences and learning style.
- **Expert instructors**—look for instruction by experienced, dedicated teachers who are not only CPAs but specialists in their fields and up to date on current exam trends.
- **Integrated resource materials**—make sure your textbooks, review materials, and test-taking tools work together throughout your entire program.
- **High pass rates**—check for a proven record of high pass rates and a real commitment to your success.
- **Value**—the cost of preparation is an important consideration in your decision. More important, however, is the cost of failure on the exam and the delay in achieving your goals. The real measure of value should be the return on investment in a preparation program that leads to success—the first time.

Look and compare. You'll find there's only one program that delivers it all. Becker CPA Review.

"I do not think I would have passed without Becker. I followed your program and received scores better than I expected. Money well spent!"

Roger LeVine June 2006

Becker: Choose. Prepare. Pass.

The Becker program helps you achieve your CPA as quickly and efficiently as possible. Our time-tested approach is the most comprehensive in the industry—a carefully crafted program that gives you the ultimate in flexibility and control over how and when you prepare.

A totally integrated program

Becker has organized all the information and resources you need into an integrated program that allows you to move progressively from study and review to test preparation, exam simulation, and ultimately, success. All the components of your program—lectures, textbooks, homework/review tools and software, and simulations—work together seamlessly to ensure that you're totally prepared to perform at your best on exam day.

A proven track record

Becker has been an advocate for CPAs for fifty years.

- We're the preferred provider of the "Big Four" accounting firms and more than 70 colleges and universities.
- Our review course has helped more than 300,000 students achieve their CPA designation.
- Independent research shows that Becker students are more satisfied than non-Becker students with their preparation experience and results.

- Research also reveals that even non-Becker students acknowledge that Becker is the category leader in its ability to help candidates pass the exam.

Most important, Becker students pass the exam at double the rate of non-Becker students.* This is significant given the tens of thousands of CPA candidates we prepare each year.

Highest quality and value

It's no secret. Achieving your CPA designation requires considerable time, energy, and resources. If you're willing to make that investment, Becker will help you multiply your return over and over again.

There may be cheaper ways to prepare for the CPA Exam, but there's no better way to prepare than with Becker. Considering our industry-leading pass rates and all the benefits of becoming a CPA sooner, there's no better investment than Becker. It all adds up: the material rewards, the professional prestige and recognition, the personal achievement. Why risk your future on anything less than the best?

*Becker students pass at twice the rate of all CPA Exam candidates who did not take a Becker Review course, based on AICPA-published pass rates.

"Even though I'm an accounting professor, I couldn't imagine preparing for the exam without Becker."

John Coulter, Ph.D. June 2006

Choose.

Like the CPA Exam, the Becker program is composed of four parts: Financial Accounting and Reporting, Auditing and Attestation, Regulation, and Business Environment and Concepts.

Experience has shown that students are most successful if they study for one part, sit for that part, then prepare for the next.

This approach also helps minimize your exam costs and preparation time while maximizing your chances for success. And although many students complete the entire exam in six months using Becker, you can pace your own preparation and exam schedule to meet your personal needs and preferences if you need more than six months.

Flexibility and Control

Becker has designed the program to give you maximum control and flexibility. Our choice of course formats lets you work the way that suits you best—how and when you prefer to study.

Regardless of the course format you choose, you receive the same comprehensive course curriculum, complete resource materials including textbooks, our proprietary PassMaster™ software, simulations, and final exams. And, we stand behind you all the way through the exam process with our tuition-free continuing help program if needed.

Live Course

Live classes offer the discipline of a fixed schedule to keep you on track to pass. We offer an extensive schedule of classes at more than 250 locations worldwide to give you the unrivaled benefit of real-time interaction with instructors and classmates. And if you must miss a classroom session, you can easily make it up online.

Online Course

An ideal choice if you're looking for a combination of structure and flexibility: the discipline of a weekly class schedule with the convenience of the Internet. You stay on track with the program, but have the flexibility to "attend" class when and where you wish. You view highly interactive, multi-media lectures delivered by Becker's expert national faculty. You also receive personalized guidance from your online instructor. You can also review sessions as often as you like with lecture CDs if you want to study off line.

Self-Study CD Course

This format gives you the greatest flexibility to study whenever and wherever you choose, yet the content is the same as the other formats, including the engaging, multi-media classroom lectures. The Self-Study CD Course is a good choice for students who are highly disciplined and self-motivated. It's also the ultimate in convenience and portability if you have a tight or unpredictable schedule.

Prepare.

All Becker course formats give you the same high quality review and exam preparation. Our methodology, curriculum, and learning resources and testing tools have been designed and proven to help you achieve optimal results on the exam.

Comprehensive, integrated methodology

The Becker approach combines expert instruction, coordinated learning tools, and sophisticated software to ensure that you can master the complete range of topics and questions you'll face on exam day.

The most current curriculum

Your program of study will focus on the subject matter specified by the American Institute of Certified Public Accountants (AICPA), the organization that administers the CPA Exam. The AICPA not only continuously updates the exam to reflect changes in accounting standards and regulations, it also periodically changes the functionality of the exam software. Becker stays on top of these developments and offers you 5,000 multiple choice questions and 50 comprehensive simulations in line with AICPA's most current changes.

Expert instruction

You will learn from some of the most highly-qualified professionals in the field. Becker course instructors are CPAs and experts in their disciplines. They're also committed teachers with a genuine passion for your success. Their goal is to ensure that you master the content, hone your test-taking skills, and gain the confidence you need to pass the exam the first time.

Test-taking preparation

We believe that intensive practice in exam-like conditions is the best way to perfect your test-taking skills. Our sophisticated exam preparation software mirrors the computer-based exam environment and is exclusively designed to make sure you encounter virtually no surprises on exam day.

"As I embark on my professional career, I will always remember your valuable assistance. I have no doubt in my mind that Becker review is the best material available for passing the CPA Exam. The National instructors were excellent and did a great job in explaining the complex concepts that were tested on the CPA Exam."

Gary Mehra June 2006

Pass.

The Becker program has a singular focus: preparing you to pass the CPA Exam. We have developed the most complete and effective array of study, review, and exam preparation resources available anywhere to support you in achieving this goal.

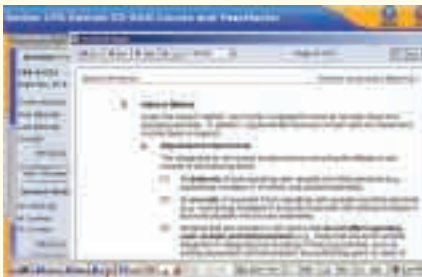

Lectures

Expert-led lectures ground you in the content and coalesce the other resources, giving you the most comprehensive, cohesive review program possible.

Textbooks

Becker review textbooks stand out from others because of their readability and clarity, their consistency with all other program components, and their precise alignment with the four CPA Exam segments. Developed by CPAs and testing experts, they include in-depth outlines of exam subjects, valuable insights, real-world examples, and visual keys to aid in retention. They're also electronically integrated into Becker's proprietary PassMaster software (see below) to ensure that your course work coordinates effortlessly with your homework and exam taking exercises.

PassMaster Software

Countless Becker alumni say that PassMaster homework software was their single most valuable review and test

preparation tool. It's a Becker exclusive with exam practice questions, explanatory answers, and performance summaries. PassMaster uses timed problem solving exercises to help you answer exam problems quickly and efficiently. You get detailed statistics on your performance to help identify areas needing improvement. You receive in-depth feedback on each question including why your answers were correct or incorrect. And links to the embedded Becker textbooks allow you to cross-reference questions to core concepts. You can also tailor progress tests each week from self-selected topics for personalized drill and practice.

Final Exam and Simulation Software

As part of every Becker review course, you get our proprietary Final Exam and Simulations software. Simulations account for 30 percent of the computer-based exam on three of the four parts. By practicing with our simulation software, you not only gain familiarity with the navigation, functions,

and databases, you get a competitive advantage as well. Final Exam software meticulously replicates the exam in terms of question format, user interfaces and research functionality. That means that when you sit for the exam, you can focus all your attention and energy on answering the questions correctly instead of wasting valuable time trying to figure out how to use the computer-based features and functions, which are constantly evolving.

Flashcards (optional)

A great complement to your review course materials, Becker flashcards are an easy and convenient way to commit to memory the most important principles and rules tested on each section of the CPA Exam. By repeatedly reinforcing the most important concepts during the final days and weeks leading up to exam day, you're better able to recall them readily during the exam. Available only to currently enrolled Becker students, the deck of nearly 1,000 cards—updated regularly—features questions on the front and answers on the back. They're

also indexed and color-coded by class session to help you focus your time on those areas you want to reinforce.

Final Review (optional)

For those individuals who prefer to go that extra mile to get an extra edge on the exam, Becker offers the only intensive, last-minute, on-demand final review product for the CPA Exam. The Final Review reinforces skills, solidifies learning, and builds mental endurance.

It is the perfect refresher for those individuals who have let too much time slip between the end of class and the day of the exam. It can also be an excellent resource for students who just fell short of passing the exam by a few points and need a little extra to get them over that exam part.

Final Review is offered in multi-media format or as a live workshop in a few select locations and is available only to current and former Becker CPA Review students.

“Your review materials are excellent!!!...I did not need anything more. The contents of the books, the PassMaster software and Flashcards were more than enough to help me hurdle the CPA. Thank you Becker.”

Armindela Cruz July 2005

We're Invested in Your Success.

At Becker, when we say we're invested in your success, it's not just words. We back it up with a flexible financing program and a promise of tuition-free continuing help.

SmartFinancing

To help ensure that every student has the Becker advantage, we offer a flexible line-of-credit financing package that allows you to finance your entire CPA Exam preparation from start to finish—your Becker course, exam preparation tools, and exam fees. Even with poor credit—or no credit history—you have an excellent chance of being approved.

Applying is easy. Just call 877.CPA.EXAM (877.272.3926). In most cases, approval can be confirmed in a matter of minutes. Don't let financing concerns stand in the way of your future. The investment you make today will pay dividends for the rest of your career.

Our Promise to You

When you choose Becker, you make an investment in your future. We make an investment in your future too with our Tuition-Free Continuing Help (TFCH) program.* If you fulfill Becker's preparation requirements but do not pass the CPA Exam, our TFCH program gives you the opportunity to repeat the course tuition free. We're that serious about your success.

Get Serious about Your Success Today. Call 877.272.3926.
