Testimonials

“Becker CPE not only provides our employees with the knowledge they need, but the instructors provide real life examples that they can apply to everyday business situations.”

“It is critical that our employees keep current on today’s issues and regulations to ensure they provide the best service for their clients.”

– Timothy Weir, Learning & Development Manager

“The course content was well organized.”

“I particularly liked the interim review questions and the fact that the instructor repeated/reinforced concepts from earlier in the session. Also, the material was presented in a clear, understandable way with examples.”

– Laura Cruise, Senior Financial Analyst

“I have completed many of Becker’s CPE webinars and really like them.”

“The topics are always timely and very informative. The speakers do a good job also. In fact, when searching for CPE, I tend to look first into Becker’s courses to see what they have to offer before looking elsewhere.”

– Wendy Mallo, Schenck SC, CPA Supervisor

Inventory Accounting Overview – Who's Got the Goods (FASB) (Flash)	An overview of inventory accounting and determination of who's got the goods under FASB.
LIFO and FIFO comparison (FASB) (Flash)	An overview of FIFO vs. LIFO; The choice of cost flow assumption (FIFO vs. LIFO) affects the results on the financial statements (balance sheet and income statement). In a period of rising prices, the FIFO inventory cost flow assumption results in a higher ending inventory and a lower cost of goods sold (and higher net income) and LIFO results in a lower inventory and a higher cost of goods sold (and lower net income).
LIFO Layers (FASB) (Flash)	An overview of LIFO layers; LIFO accounting is complex. The last in, first out method of determining inventory requires that records be maintained as to the base year inventory amount and additional layers that may be added yearly. After an original LIFO amount is created, it may decrease (a LIFO liquidation), or additional layers may be created in each year. An additional layer is priced at the earliest costs of the year in which it was created.
LIFO Walkthrough (FASB) (Flash)	An overview of LIFO; Inventory valuation is dependent on the cost flow assumption underlying the computation. Under LIFO, the last costs inventoried are the first costs transferred to cost of goods sold. Ending inventory, therefore, includes the oldest costs. The ending balance of inventory will typically not approximate replacement cost.
New Lease Accounting – Identifying Lease Components (FASB) (Flash)	The application of the new lease accounting model; helps users understand the impact on lessee accounting.
New Lease Accounting – Lease Classification (FASB) (Flash)	The criteria and special considerations needed to determine lease classification.

Popular course titles offered as in-house or client-specific webcast training options

COVID-19 Implications

The COVID-19 pandemic has impacted all aspects of the accounting, finance, and tax professions. Becker has developed in-depth content related to COVID-19 and can deliver these courses through on-line training options. Courses include topics covering Insights on the Business and Accounting Impact of the Coronavirus (COVID-19), the CARES Act, the Families First Coronavirus Response Act, SEC Updates with Coronavirus Implications, and Myths and Realities of Working from Home.

Individual Tax Update

New tax legislation and difficult areas of tax compliance impacting individuals will be discussed, including the most recent legislative activity impacting income and deductions, retirement and health insurance and the application of the payroll tax and self-employment tax.

Federal Tax Update

This session will provide engaging and insightful discussion related to key legislation passed during the COVID-19 pandemic (the CARES Act, Paycheck Protection Program, Families First Coronavirus Response Act, etc.) which will help answer the tough questions being asked by clients and plan next steps to be taken. This session will also cover other key IRS guidance recently released during the pandemic and discussion of other important individual and business tax topics as well. This course will also cover significant tax rulings and cases over the past 12 months.

Revenue Recognition

Revenue recognition is one of the most important reporting areas faced by accountants and standard setters. Avoid the many traps related to recognizing revenue in the delivery of products and services while you become familiar with GAAP requirements, including multiple element arrangements. This course reviews the revenue recognition standard jointly issued by the FASB and IASB, plus details on the accounting standards updates released since the issuance of the converged standard.

Leases

Participants will gain an understanding of the FASB's lease accounting standard, ASU 2016-02, leases (topic 842). The history and objectives of the standard will be discussed in addition to key definitions and how to apply the standard. Differences between the FASB's ASC topic 842 and the IASB's lease accounting standard, IFRS 16, leases, will also be addressed.

SEC Reporting Update

Learn about emerging issues, hot topics and current projects within the SEC, plus the impact of recent developments on financial statement preparers and auditors, recent trends in comments letters issued to registrants and enforcement actions by the SEC.

Excel Tips and Tricks

Taught by Dr. Wayne Winston, an expert in the field of Microsoft® Excel, this course will increase your productivity along with your Excel knowledge. According to Wayne, "The spreadsheet is the canvas for the business analyst." Learn some formula shortcuts that will enhance your Microsoft® Excel experience.

Pass-Through Entities Update

Learn about the pass-through entity business structures used in practice to maximize tax savings. Key coverage on the calculation of the section 199A deduction is included.

International Tax Update

Through the use of effective examples and in-depth discussion, participants will gain a practical and clear understanding of international tax developments. This update provides a thorough analysis of legislative changes that impact business transactions.

Accounting and Auditing Update

Stay current with recent pronouncements by FASB and other bodies that contribute to GAAP with this review of important GAAP topics.

Yellow Book Update

GAO GAGAS provide a solid framework for conducting high-quality audits of government programs and their implementation by government entities and other entities that receive government awards. This course explains those standards (including the 2018 revisions) and how they can help auditors objectively acquire and evaluate sufficient, appropriate evidence and report the results. Real-world examples will demonstrate the practical application of GAGAS.

Ethics

Participants will cover foundations of ethical behavior and the AICPA Code of Professional Conduct and its applicability for accounting professionals. All it takes is a look at news headlines to see a business world littered with victims of unethical behavior. Coverage will include not only how unethical behavior can ruin careers, bring debilitating expenses and fines to any company and lead to prison terms for executives and others, but also how individuals and companies that act with integrity can drive employee and client satisfaction while improving company performance. Courses meeting state specific-ethics requirements are available.

Independence

Because auditor objectivity can be crucial to investor confidence, regulators and others become concerned when they perceive actions that may impair or appear to impair independence. That's why accounting compliance in today's business world demands a solid understanding of the most current ethics rules relating to independence, no matter the regulatory body. This course will cover key independence concepts.

Blockchain

Today's workforce is in need of blockchain training. Accounting Today has cited that only 1% consider themselves as an expert on the topic and 50% are asking "What is blockchain?" Blockchain technology has enormous potential to solve real auditing and control problems. Learn about the basics and application of blockchain technology and how to integrate smart contracts into your business.

Content licensing

Custom course development and webinar service

Custom content development

With more than 60 years of experience in creating comprehensive and accurate instructional content, Becker will work with your internal subject-matter experts to create a custom course, from ideation to development and final review – or develop a full turnkey custom course to your specifications.

Take our delivery platform and the expertise of our instructors to facilitate live or online training in one or multiple locations – with content that can be tailored to customize messaging to a specific group or audience.

Pricing

Pricing for course development and special services is based on complexity and volume of work. For pricing requests, Becker will meet with your organization to determine what's required and prepare a scoping document with quote for your review.

Webinar to online course conversion

Organizations that create and offer in-house webinar training often produce one-time events, but with the help of Becker, you can leverage your proprietary intellectual property into reusable online training that meets the requirements for providing continuing education credit.

This service includes:

- Multiple instructional design options
- Pilot testing, quiz and exam questions
- All compliance requirements necessary to meet the National State Board of Accountancy CPE requirements

Instructors

Our expert instructors produce the highest quality courses based upon accurate and up-to-date information, reinforced by decades of practical experience. This ensures the training your employees receive from Becker provides the most comprehensive learning experience available.
