

Becker⁺

CPA Exam Review

An all-new,
better-than-ever
Becker launching
October 3, 2023.

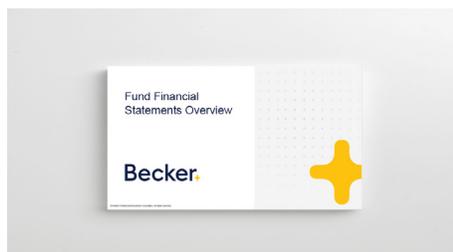

Entirely New Content

Becker is ready for CPA Evolution. We spent two years and more than \$2 million to redesign our course to match the Core + Discipline model of the new exam. Check out how we have built out the new content and significantly upgraded the prep experience using student feedback.

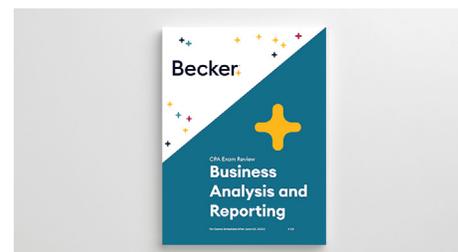

+ 900+ new, right-sized dynamic lecture videos

Across all six exam sections, these are our best lectures yet! Reformatted to be highly visual and shorter (10-20 minutes each instead of 40-60) to boost engagement and comprehension.

+ New lecture slide handouts

A brand new asset that accompanies each lecture video and the textbook content in an easy-to-read and visual format. Perfect for taking notes as you go or reviewing after each unit.

+ 3 brand new discipline exam sections

Three entirely new course sections to address the Discipline structure of the CPA Exam, Business Analysis and Reporting (BAR), Information Systems and Controls (ISC), and Tax Compliance and Planning (TCP).

More Personalized Tools

We know the investment our learners make in CPA Exam prep is significant, so we continue to invest back into their success in many ways including our advanced learning technology we call Adapt2U Technology.

Adapt2U Technology upgrade

Gives learners way more optionality with personalized practices tests across all exam sections. Learners can now choose Practice Mode that gives correct answers as you go or Exam Mode which provides all the answers at the end.

A New Customizable Study Planner

Prepare smarter with a study planner that meets your needs and can adapt to your life for maximum efficiency and top-notch results.

With Even More Ways To Learn

More live, virtual learning opportunities than ever before to compliment traditional self-study.

LiveOnline classes

Live, virtual CPA Exam lectures that learners can use exclusively or to support their self-study. Classes are scheduled out in advance so learners can follow a plan to succeed. Access each LiveOnline class On Demand as well.

Deep Dive Workshops

These sessions dive deep into the most challenging exam concepts in live, virtual classes. This prep supplement is an efficient way to master key test concepts in an organized and efficient way.

Office Hours

Join other students in a live, virtual setting to ask any question you have about a specific CPA Exam section. An expert instructor will answer it in real time!

Instructors

Becker's group of industry-leading national instructors is getting even better with two new additions to our CPA Evolution course.

Peter Olinto

Timothy F. Gearty

Michael Brown

Michelle Moshe

Michael Potenza

There's no reason to wait – start prepping today.

Current students will be seamlessly transitioned to the new Becker CPA Exam Review experience, **including discipline content, when Becker's new structure launches on October 3, 2023**, with no additional costs.

- ✦ For current students preparing to take the exam before the changes with CPA Evolution, you can easily prep for the current structure, with the click of a button. Last day to test the current exam content is December 15, 2023.
- ✦ For students preparing to take the exam after the AICPA's new Evolution structure begins on January 10, 2024, any progress made in current course will be automatically carried-over. You will easily access the CPA Evolution exam prep materials with the click of a button.

Becker's new CPA Exam Review experience includes the new discipline content:

- ✦ If you haven't yet completed the BEC section of your course, you'll be able to select a discipline section of study at no additional cost.
- ✦ Don't know which discipline is right for you? We can help. You'll have the ability to try each section before deciding.

For exams taken BEFORE December 15, 2023

Use the CURRENT LMS and textbook versions:

For exams taken ON OR AFTER January 10, 2024

Use the following LMS and textbook versions:
